Celebrity Attractiveness
Extra Credit Project

**Directions:** After learning about what research has shown to be attractive on individuals both in the United States and throughout the world, your job is to identify those features with photographic evidence from celebrity images. I’ve provided space to paste (either physically or digitally) the pictures or you can email them as attachments as well. You’ll receive .1 points for each picture and accurate attractive feature(s) indicators, so you need 20 to earn all 2 points.

1.) List of features:
