Directions: You will visit a series of websites to apply concepts learned from your Developmental Psychology unit in AP Psychology. Follow the directions below by accessing various links, read the information presented on the webpage, and then answer the questions provided. You will earn two extra credit points for full completion.

Part I: GENDER AND BEYONCÉ. Watch the music video for Beyoncé’s “If I Were a Boy” at https://www.youtube.com/watch?v=AWpsOqh8q0M and then answer the following questions. You may find it helpful to read the lyrics at https://www.azlyrics.com/lyrics/beyoncetondest/ifiwereaboy.html.

1. What did you perceive to be the overall meaning to the music video and song lyrics?

2. What specific gender norms or roles does Beyoncé mention? Specify to which gender she’s referring.

3. Some critics claim that the “sexualized” segments of the video (from 0:15-0:20 and 1:45-1:55) only reinforce gender stereotypes (i.e., women are expected to be sexualized more than men) and actually counteract the message Beyoncé’s trying to convey. Do you agree with this criticism? Why/why not? Explain your answer.

Part II: BSRI. The most widely respected gender survey is the Bem Sex-Role Inventory (it has both very high validity and reliability). Take this survey at https://www.psytoolkit.org/cgi-bin/psy2.4.1/survey?s=BsNnQ.

1. Record your scores:  
   Femininity: _____  
   Masculinity: _____  
   Neutral Items: _____

2. Read the “Interpretation” section. Based on the instructions, do you most closely rank as Feminine, Masculine, Androgynous, or Undifferentiated? _______________________

3. Do you agree with your score/ranking? Why or why not?

4. This survey is based on self-assessment (how you view yourself, rather than how other people see you). Do you think most people accurately rate themselves in these dimensions? Explain your answer.

5. What’s your opinion about gender as a concept? Some questions to ponder: do you think gender is the same as sex? are there more than two genders? is gender a spectrum? is gender a choice? There’s no right or wrong answers for these—just give your honest opinion.
**Part III: THE MORAL MACHINE.** Access the “Moral Machine” at [http://moralmachine.mit.edu/](http://moralmachine.mit.edu/). Choose your language and then scroll down to click on “Start Judging”. You will be presented with thirteen different scenarios in which you will have a self-driving car make a moral choice that you believe results in the best possible outcome. Click on “Show Description” to get a text summary of each scenario. Make your selections and then answer the questions below.

1. Who was your most saved character? ________________
   Who was your most killed character? ________________

2. For each of the following, indicate where you scored on the spectrum and how you scored relative to others. Mark an X where you scored and an O where others scored.

**Part IV: EGO IDENTITY PROCESS QUESTIONNAIRE.** Erikson states you are currently in “Identity vs. Role Confusion” and are figuring out who you are and what beliefs matter to you. To measure this, go to [http://bcs.worthpublishers.com/WebPub/Psychology/psychsim5/PsychSim5%20Tutorials/Who%20am%20I/WhoAmI.htm](http://bcs.worthpublishers.com/WebPub/Psychology/psychsim5/PsychSim5%20Tutorials/Who%20am%20I/WhoAmI.htm), advance the slide, and answer the 32 questions presented (some will be repetitive). Answer the following:

1. Record your scores. **Exploration:** _____. This is considered a _______ degree of exploration.
   **Commitment:** _____. This is considered a _______ degree of commitment.

2. Advance and read the next four pages. Based on your scores, circle your status category below:
   (Diffusion) (Moratorium) (Foreclosure) (Identity Achievement)
