1. What are the two main reasons/ways Sigmund Freud and Carl Jung are connected to mythology?

   a. Freud and Jung were contemporaries and the two of them were hugely influential in establishing ______________________ and ______________________ in the 20th century.

   b. Freud and Jung both believed that our ________________—the stories our minds create without our active input—were keys to ________________ our waking selves and the problems we experienced.

   c. What is the Oedipal Complex? What is its root story?

   d. Jung believed that dreams could be understood through “__________________”. He defined these as those figures or concepts that occur ____________________ ____________________, shared, in essence, amongst all people.

      i. According to Jung, human beings everywhere are born with the ability to draw archetypes from a sort of super-psychic aether which he named the _____________________________.

      ii. Describe the following archetypes:

         1. shadow -

         2. anima/animus -

         3. self -

   iii. Which element of the comparison between Star Wars and Jung’s archetypes did you find most interesting? Explain why.
